Les Accessoires

All Balmain Hair Accessories are handcrafted in Europe and designed with a focus on luxury, quality, and exquisite detailing. Each accessory is 18-karat gold-plated and adorned with either the iconic Balmain logo or the signature “B” logo, reflecting the brand’s couture DNA and exclusive aesthetic.

All accessories are delivered in an elegant signature box and include a polishing cloth, allowing the piece to be maintained after exposure to styling products and to preserve its shine over time.

Handcrafted for stability and comfort

The handcrafted constructions ensure a stronger and more secure hold in the hair, making the accessories more durable while reducing the risk of breakage. At the same time, they are designed to be gentle on the hair, allowing them to be worn comfortably throughout the day.

A secure and refined hold in the hair

The inside of leather accessories is lined with nubuck leather, which has a slightly textured surface. This provides better grip in the hair and makes the accessories more slip-resistant, ensuring they stay securely in place without sliding.
